UUA PUBLICATION

NOTICE

Look-See will continue publishing during the Summer. Ricky Hilberg, 3403 W. 119th Street, Cleveland 11, Ohio, has consented to take over publishing until September, after the next issue. The Newspaper Committee of the UUA wishes to thank Mr. Hilberg for volunteering his time.

SERIOUS LAG IN RESEARCH

Atlanta, Georgia - April 17th, 1963 - (LS) - It has been reported to Look-See Headquarters by a number of reliable sources that a "serious lag" in the enthusiasm of UFO investigators and a wave of resignations of key UFO leaders has caused a great deal of worry and consternation in UFO circles. To offset this serious setback and to avoid a major crisis, a vigorous drive towards renewing UFO interest must be set into motion. (URCU)

NEW PLANET IS OUT OF SOLAR SYSTEM

Swathmore College - April 18th, 1963 - (LS) - The first planet-sized body outside of the solar system was reported today by a Swathmore College astronomer. The planet which circles the 36 billion miles distant Bernard's Star was discovered by the Director of Swathmore's Sproul Observatory, Dr. Peter Van DeKamp. The new planet was named Bernard's Star B. SPECIAL ANNOUNCEMENTS

A taped edition of the UFO Informer, called the "audio-informer" done with a radio-type format is scheduled to be put out soon by the UUA project committee. This tape will be circulated by interested UFOlogists with tape recorders, and will serve as the official audio organ of the United UFOlogical Association. Slated for the first audio informer will be an interview with Bob Miller of the United Research Council of UFOlogy. Ricky Hilberg is host.

NEWS HINTS:

Look for the release of several books by various UFO group leaders between now and October.
